

Bradbury Security is committed in the pursuit of quality and excellence in providing our customers with the best physical security products at the best value, in the quickest time – delivered right first time, on time every time whilst committing to the protection of the environment, including prevention of pollution and implementing Green purchasing.

To accomplish the quality & environmental objectives Bradbury has established, maintained & implemented an integrated Management System that meets the requirements of ISO 9001 and ISO 14001

To sustain and protect the environment in which the company exists, our policy, systems and programmes will:

- Create and maintain awareness of customer requirements and expectations as well as environmental legal and regulatory requirements.
- To fully comply with all legal requirements.
- To consistently and fully satisfy customers and other interested parties, environmental requirements as specified by the adoption of best practice.
- To provide the right organisation and resources and employ the right people to ensure quality services which fulfil customers' requirements effectively, efficient and profitably.
- To reduce environmental impact of the company's operations with particular reference to waste and recycling, road haulage, purchasing and energy efficiency.
- To continually review and monitor all aspects of operations to identify opportunities for implementing quality and environmental performance improvement.

The entire Bradbury Management Team are committed to the continual improvement of its performance by the monitoring of quality and environmental issues and through involvement with customers, suppliers, regulatory authorities and the community.

Tim Strawson – Managing Director
